

— *Abies procera*

```
graph LR; Root --- Node1; Root --- Node2; Node1 --- Abies[Abies procera]; Node2 --- Node3; Node3 --- Helianthus[Helianthus annuus]; Node3 --- Poa[Poa annua];
```

A phylogenetic tree diagram with three tips. The root is on the left. A vertical line descends from the root, then a horizontal line branches to the right to the tip labeled *Abies procera*. The vertical line continues down, then a horizontal line branches to the right to a node. From this node, a vertical line descends to another node, which then branches horizontally to the right to the tip labeled *Helianthus annuus*. The vertical line continues down to the tip labeled *Poa annua*.

— *Helianthus annuus*

— *Poa annua*
