

— *Abies procera*

```
graph LR; Root --- Node1; Root --- Node2; Node1 --- Abies[Abies procera]; Node2 --- Node3; Node3 --- Helianthus[Helianthus annuus]; Node3 --- Poa[Poa annua];
```

A phylogenetic tree diagram with three taxa. The root is on the left. A vertical line descends from the root, then a horizontal line branches to the right, leading to a vertical line that terminates at the label *Abies procera*. Another horizontal line branches to the right from the vertical line, leading to a vertical line that then branches into two horizontal lines, each leading to a vertical line that terminates at the labels *Helianthus annuus* and *Poa annua* respectively.

— *Helianthus annuus*

— *Poa annua*
